### ABOUT ME

I have been studying Testing since May 2022.

I am pretty good at creation of test documentation: writing checklists, test cases, bug reports and ect. I have good knowledge of Software development methodologies, test design techniques, functional and non-functional types of testing.

My English level is Intermediate.

I am ambitious and highly motivated person who works responsibly and efficiently. I have been working in the hospitality and restaurant business for 10 years. So, my qualities such as communicability, flexibility and reliability make me good at teamwork.

I am looking for a job or internship to improve my skills in Testing and deepen my knowledge in this sphere.
